

Effective Date: August 2026

Version: 2.0

Scope: Global / Media Digitization Services

1. COMMITMENT TO PRIVACY

At **Ahmed Studio**, we recognize that your memories, personal archives, and private files are irreplaceable. We respect your confidentiality and are committed to maintaining the security and privacy of the personal information and physical/digital media you entrust to us. This Privacy Policy governs all data collected across our web applications, client portals, and physical media digitization services.

2. INFORMATION WE COLLECT

To provide high-fidelity digitization, restoration, and consulting services, we collect necessary personal details and technical metadata:

- **Contact Details:** Your full name, phone number, email address, shipping/billing address.
- **Project Data:** Order notes, custom restoration preferences, labels, and original media content.
- **Media Submissions:** Video tapes (VHS, Hi8, MiniDV), film reels (Super 8, 8mm, 16mm), photographs, slides, audio recordings, and uploaded digital assets.
- **Technical & System Information:** IP address, browser type, device identifiers, and session interaction data collected automatically when visiting our platform.

3. HOW WE USE YOUR INFORMATION

Your data is strictly utilized to operate and elevate our core services. Specifically, we use your information to:

- Process, digitize, enhance, and deliver your audio, video, and image archives.
- Communicate project updates, tracking information, and customer care assistance.
- Maintain service quality, prevent security threats, and manage internal order logs.

Strict Anti-Monetization Guarantee: Ahmed Studio does not sell, rent, license, or trade your personal information or media content to third-party advertisers or data brokers under any circumstances.

4. HANDLING & SECURITY OF MEDIA ASSETS

We treat your physical tapes, films, photos, and digital assets as if they were our own high-value heritage archives:

- **Secure Storage:** Physical media items are stored in climate-controlled, restricted-access facilities throughout the processing lifecycle.
- **Temporary Digital Buffering:** Uploaded or digitized files are held in encrypted local server storage solely to complete enhancement, quality assurance, and customer download verification.
- **Automated Data Retention & Erasure:** Unless explicitly requested for longer cloud archival storage, all digital copies of your media are permanently and securely deleted from our temporary processing systems within 30 days of project delivery.

5. TECHNICAL DATA SECURITY MEASURES

We implement enterprise-grade security protocols, including SSL/TLS encryption for data transmission, strict role-based access controls for operational staff, and multi-layered hardware firewall protections. While no digital transfer or electronic storage system is 100% impenetrable, we actively monitor and update our security posture to defend against unauthorized access, loss, or alteration.

6. YOUR RIGHTS & CHOICES

You retain full control over your personal data. You have the right to request access to the personal data we hold about you, request corrections or updates, or demand complete deletion of your records and digitized media from our active repositories (subject to standard tax/legal accounting constraints).

7. POLICY UPDATES

Ahmed Studio reserves the right to revise this Privacy Policy to reflect technical upgrades, regulatory changes, or operational enhancements. Any updates will be published with an updated effective date. Continued engagement with our services constitutes acceptance of the modified terms.

8. Privacy Support & Enquiries

For questions, privacy verification, or data removal requests, please contact our privacy compliance team:
